

Final Exam IDs – For the final exam, I will ask a **three essay questions** and ask you to answer each question, incorporating **five** of the IDs below. You must use **five different** IDs for each essay, but you may use more than five if you wish. You will not get extra credit for using more. I expect each essay to have a brief introduction (2-3 sentences with some form of thesis) and then 2-4 additional paragraphs. The best essays will be able to provide specific information for how each of the IDs included in the essay relates to the question.
